

Mag-Mount

The SMW-306 Series Antennas accommodates higher frequency applications. Bandwidth coverage is $2.4-2.5 \mathrm{GHz}$ on the first element, $3.0-6.0 \mathrm{GHz}$ on the second element and GPS on the third.

The SMW-306 antenna could be used for Public Safety applications with Wireless video at 2.4 GHz and Mesh Networking at 4.9 GHz . It could also be used for Smart Highway applications with WiFi at 2.4 GHz and DSRC at 5.9 GHz , or for Military applications that combine WiFi 2.4 GHz with the Military 4.4 GHz band.

The SMW Series antennas have passed Shock \& Vibration standards we well as achieving a Dust and Water Ingress rating of IP67. The SMW surface mount mounts easily to roof, truck or bulkhead.

The antenna is enclosed in a $4.2^{\prime \prime} \mathrm{D} \times 3.2^{\prime \prime} \mathrm{H}(107 \mathrm{~mm} \times 81 \mathrm{~mm})$ weatherproof radome, and supplied with all mounting hardware and a sealing gasket.

The antenna is also available as a mag-mount and can be identified as the MGW Series. Both the surface mount antennas and the mag mount antennas are available in either black or white.

## SMW-306 multiband, 3-cable WiFi, WiMAX \& GPS

- 3 antennas in 1 antenna housing
- Covers GPS, WiFi 2.4, WiMAX 3.5, Military 4.4 \& Public Safety 4.9 GHz
- Saves time and money by reducing the number of installations
- Available in either Surface-mount (SMW Series or Mag-mount (MGW Series)
